switch on safety FOR WINDOWS 10

Here's how you Switch on Safety to help keep your child safe when learning from home on a **WINDOWS 10** device. These instructions will help you change the 'DNS' settings on your child's device to add an extra safety filter for anyone using it for online learning.

(1) Mobile hotspot

① Data usage
② Proxy

SWITCH ON SAFETY - WINDOWS 10

P Data u

Change adapter options

Metwork troubleshooter Diagnose and fix network provided by your network properties

Sharing options

5. Click on 'Internet Protocol Version 4' and select 'Properties'.

6. Select **'Use the following DNS server addresses'.** If you already have a DNS server address, take a picture or write it down for your records.

SWITCH

2

// Next you need to add manual 'DNS' settings. Here's how.

1. For Preferred enter the number **23.216.52.39**

3. Click **'OK'**.

HAVING TROUBLE? Make sure you've entered the right DNS server numbers. If you're still experiencing issues, repeat instructions up to FIND Step 6 and select 'Obtain DNS server address automatically' so the internet keeps working. Then go to **switchonsafety.co.nz/help** or fill out the **Contact form**.

4. Untick the box labelled **'Internet Protocol Version 6 (TCP/IPv6)'**. Then click **'OK'**. If you don't have the **'OK'** button, please click **'Close'**.

) TEST

// Finally, you need to check that it worked. Here's how.

IMPORTANT: RESTART YOUR DEVICE BEFORE THE 'TEST' INSTRUCTIONS.

1. Type in **www.google.com** to check that the internet is working.

2. Try accessing www.freelotto.com to test you've Switched on Safety. You will see something like the screen to the right if it's working. If you get through to the webpage successfully, please check that all setup steps have been followed and test again, or visit www.switchonsafety.co.nz/help

HAVING TROUBLE? Make sure you've entered the right DNS server numbers.
